SUMMARY

Experienced Frontend Developer with 3 years of expertise in creating high-performance websites and applications. Proficient in integrating payment gateways and implementing subscription features for a seamless user experience. Utilize latest web technologies to develop fast and user-friendly applications.

WORK EXPERIENCE

Frontend Developer – Web Forte Technologie, SAS Nagar, IN

Jul 2025 – Present

- Currently working as a Frontend Developer, handling both UI/UX design and frontend functionality for web applications.
- Responsible for translating design requirements into responsive, user-friendly interfaces with a strong focus on usability and performance.
- Implemented frontend logic and integrated backend services using Supabase for authentication, database management, and real-time data handling.
- Collaborating with team members to develop scalable features, optimize application performance, and ensure smooth user experiences.

Frontend Developer – Itechnolabs Inc., SAS Nagar, IN

Apr 2023 – Apr 2025

- Worked on multiple client-facing projects, contributing to the development of responsive and scalable user interfaces.
- Collaborated with designers, backend developers, and project managers to deliver high-quality frontend solutions.
- Actively participated in requirement analysis, feature implementation, and UI optimization to enhance user experience.
- Strengthened client communication and project ownership skills by delivering solutions aligned with business requirements and deadlines.

Frontend Developer – Studio45 Creations, SAS Nagar, IN

Oct 2022 – Apr 2023

- Took ownership of the complete frontend development lifecycle for multiple projects.
- Built responsive and high-quality web interfaces using modern frontend technologies and best practices.
- Worked closely with cross-functional teams to ensure seamless frontend and backend integration.
- Delivered standalone projects with a strong focus on performance, usability, and maintainability.

PROJECTS

Honor Pet

[Live Demo](#)

Built a role-based pet cremation management system with two user roles: Admin (Pet Cremation Department) and Clinic Owner. Clinic owners submit pet and pet-parent details, while admins manage, track, and process cremation requests through a centralized dashboard. Integrated Supabase for authentication, database management, and secure data handling. Designed responsive layouts using Tailwind CSS and enhanced user experience with smooth UI animations using Motion.

Jobizz

[Live Demo](#)

Developed a service booking platform connecting customers with verified professionals offering services such as home repairs, tutoring, and beauty treatments. Professionals can create service profiles, manage bookings, and communicate with customers, while users can browse services and schedule appointments. Focused on intuitive UI design, performance optimization, and scalable frontend architecture.

Lynnette's Kitchen

[Live Demo](#)

Created an interactive culinary platform where chefs can upload recipe videos and host online cooking classes. Users can explore recipes, watch step-by-step cooking videos, and book live sessions to improve their culinary skills. Emphasized clean UI, smooth user flows, and engaging content presentation to create a community-driven learning experience.

EDUCATION

2021 - 2024	BCA at Punjab Technical University, PB	(Grade: 8.2/10)
2020 - 2021	Class 12th at Govt. Model Senior Secondary School, PB	(Percentage: 82%)
